About the Course

The outbreak of COVID 19 has resulted in a paradigm shift in education. Online classes are the need of the hour to sustain our education system, especially in the wake of the outbreak of the pandemic. The 21st century has been rightly termed as the digital era. With the internet bringing a substantial change in human life, we are heavily dependent on the usage of technology to even complete simple tasks. The e-education has certainly ignited the teaching sector. This two-week e-course on '**LEARNING TO TEACH ONLINE**' aims to develop those skills among teachers which are very much required for their personal and professional development.

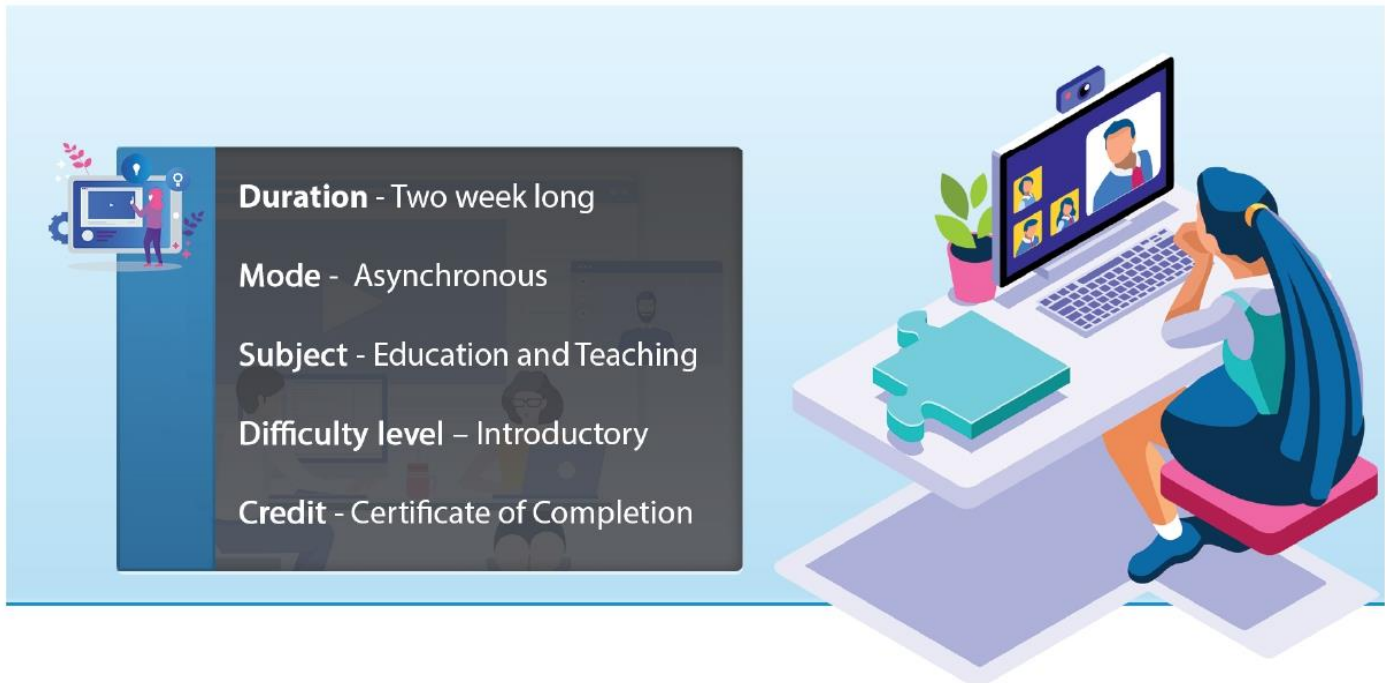

Objectives

- To acquaint the participants with the nature & concept of e-resources.
- To familiarize with various apps, softwares and tools for developing audio & video e-resources.
- To give insight in the process of developing audio and video e-resources.
- To develop competencies related to design, develop and deliver audio & video e- resources.

E-Certificates will be provided after successful completion of course.

Pre-requisites: Laptop/ Desktop/ Smartphones with good Internet Facility.
In case of any query, mail at devsamajtlc@gmail.com, www.devsamaj.org

Note:

Asynchronous online teaching

Teaching materials will be posted online, and learners work through them in their own time, communicating with each other and the teacher via discussion forums, or even by email. The learners can work at their own pace and at times of day which are convenient for them. There may still be deadlines for quizzes and assignments to be submitted for feedback, and there may be a recommended schedule for students to follow so that they have some idea of what they should be doing and when.

Hope you will enjoy the course!!

Happy learning and stay safe!!

Introduction

Podcasting - (Dr. Ritu Mago)

A podcast is an episodic series of spoken word digital audio files that a user can download to a personal device for easy listening. Streaming applications and podcasting services provide a convenient, integrated way to manage a personal consumption queue across many podcast sources and playback devices.

Brochure Making using MS-Word -(Ms. Shivani Sharma)

A brochure is an informative paper document. These days we are using e-brochures which is a digital version of the brochure. There are lots of software that can be used to make e-brochures like Corel Draw, Photoshop, etc. But we can make a simple brochure via using MS-Word too.

Mind Mapping -(Dr. Seema Sareen)

A mind map is a graphical way to represent ideas and concepts. It is a visual thinking tool that helps to structure information, helping you to better analyze, comprehend, synthesize, recall, and generate new ideas. A mind map is a diagram that displays information visually. The subject of a mind map is always located in the centre of the map. From there related ideas and keywords branch out in all directions resulting in a radiant structure. One of the very popular software to create mind maps is Mind master software from Edrawsoft.com. The software is very user friendly and easy to use. Hand on with this tool are provided in this session. The link for Mind master software is
