## 2.6 Innovative processes adopted by the institution in Teaching and Learning:

**Direct Instruction** The Direct instruction strategy is highly teacher-directed and is among the most commonly used. This strategy includes methods such as lecture, didactic questioning, explicit teaching, practice and drill and demonstrations. This strategy is also used for introducing new content, or actively involving students in knowledge construction. The rule or generalization is presented and then illustrated with examples.

**Indirect Instruction** In order to foster creativity and the development of interpersonal skills and abilities among the students, indirect instruction in the form of problem solving, case studies, concept mapping and assignments are used to complement the direct instructions.

**Experiential Learning** Experiential learning both in and outside the classroom is used to increase understanding and retention of the subject matter. This includes role playing, dramatisation, surveys, simulations, field trips, field observations, conducting experiments, games, teaching practice etc.

**Independent Study** College helps students to grow as independent learners by using wide range of instructional methods which foster the development of individual student initiative, self-reliance, and self-improvement. This includes report writing, research projects, library study, preparing assignments, Internet browsing and making Power-Point Presentation.

### **Interactive Instruction/Dialogue Method**

Interactive instruction is used to encourage discussion and sharing among the students, provide learners with opportunities to react to the ideas, experience, insights, and knowledge of the teacher. The interactive instruction strategy includes total class discussions, small group discussions, projects, or student pairs or triads working on assignments together, debates, seminars, workshops, panel discussions, tutorial groups, cooperative learning groups, brainstorming, peer practice, puppetry etc..

2.12 How does IQAC Contribute/Monitor/Evaluate the Teaching & Learning processes :

IQAC monitors and brings quality in various aspects of evaluation of teaching learning process. The evaluation procedure is communicated to the students at the beginning of the year, with regard to evaluation process, internal assessment, mid term assessment, term end evaluations and external evaluation the details of which are given in the prospectus also. The evaluation is continuous and comprehensive. Formative and summative evaluation form an integral part of evaluation.

House tests are conducted twice during the session. They are based on external examination pattern. It is compulsory to appear in both the tests and internal assessment is based on the performance of house tests, class tests, assignments and classroom interaction in each subject.

Monthly test in all the subjects are mandatory for all the three classes i.e. B.Ed., M.Ed. and PGDGC. As per university rules students have to secure at least 40% marks in each examination and in each paper, otherwise they will not be allowed to appear in the final exams.

The record of the activities (curricular and co-curricular aspects) of each student for the entire year is entered continuously in the computer which is considered at the time of internal assessment. Transparency is maintained by displaying marks of each and every category on the display board. Answer sheets of the term tests are shown to the students which are followed by the discussion. Their queries regarding their answers, marks and other mistakes are answered by the teachers. Enough time is given to the students to analyse their answer sheets. The whole assessment process is computerised. The final results of the previous sessions are available on the college website.
